

ApplyPilot

A private agentic assistant for applications, CV tailoring, evaluation, email sending, reply tracking, and MCP-based inspection.

Muhammad Usman and Muhammad Umar

Department of Electrical Engineering and Computer Science, GIST, Korea

June 8, 2026

Why ApplyPilot?

Manual application workflow

Search across noisy job/university pages
Tailor CV and cover letter repeatedly
Manually track sent applications and replies
Risk of sending weak or unverified material

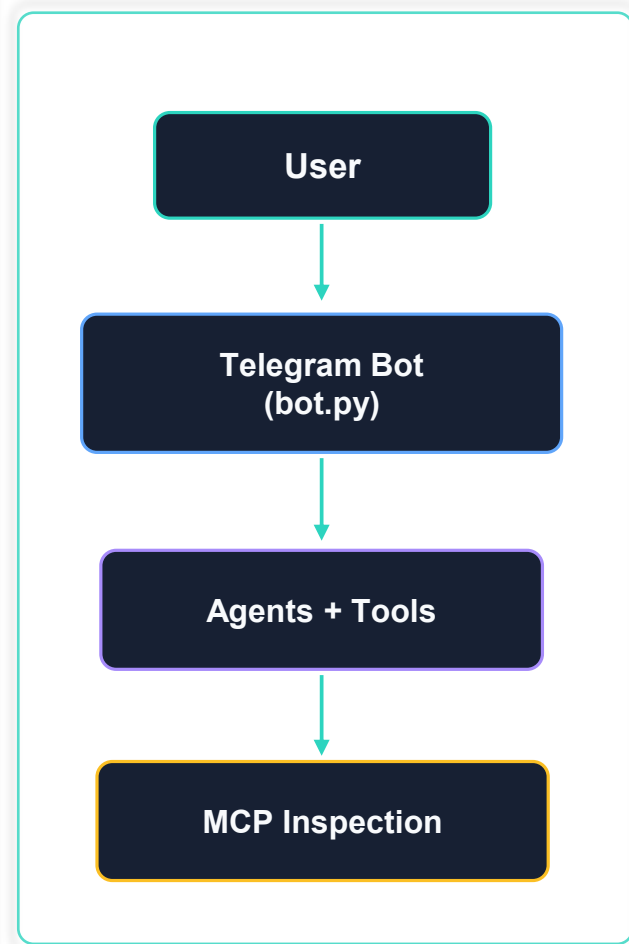

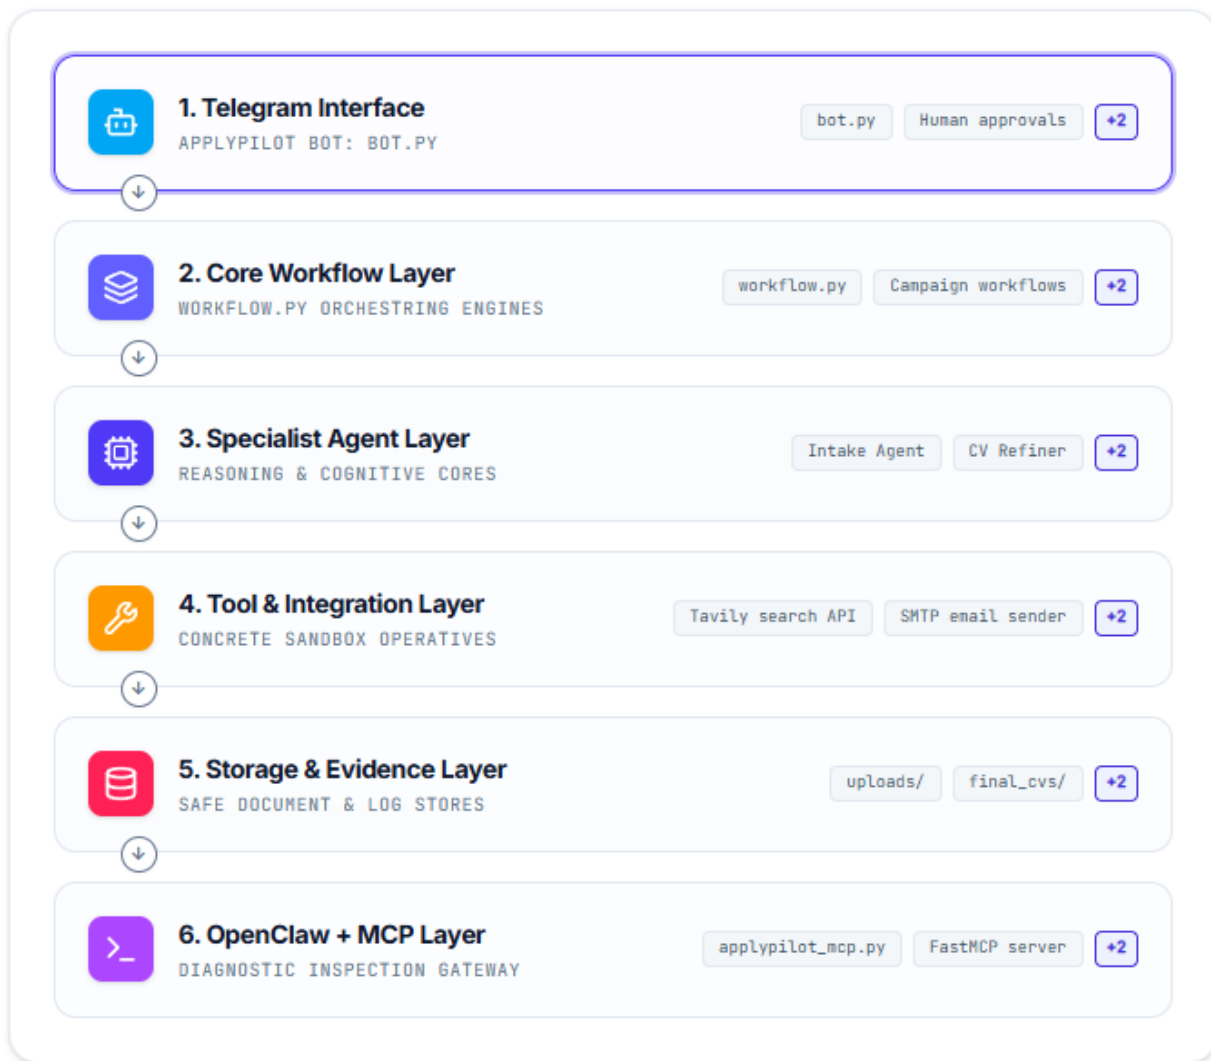

ApplyPilot workflow

Structured search + academic intent detection
CV tailoring + draft generation
Evaluation Agent checks before sending
Email and reply tracking with auditable records

Evidence stores: data/application_tracker.csv · usage_log/USAGE_LOG.md · generated CV/cover letter
PDFs

MCP Role in ApplyPilot

MCP exposes inspection. Telegram remains the main action workflow.

L I V E

DEMO

1. /campaign → Upload CV → Set goal
2. Search + Rank → /showcampaigncv
3. /finalizecv → /draft → /evaluate
4. /sendemail → /checkreplies → /status

Thank you!
